Weigh Station Software (twm.exe) scale Integration into MICRO A12E scales

Required for this to work

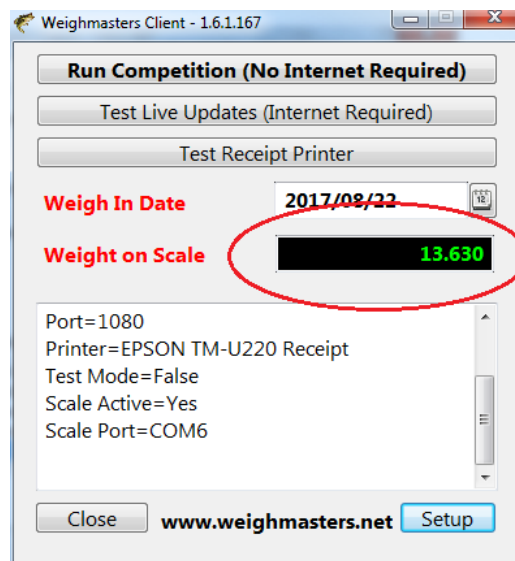

1. Micro A12E head interface and load cell configured for 15Kg at 5 gram intervals
2. PC Serial port or USB to Serial Converter supporting a baud rate of 9600
3. RS232 Cable and connectors from scale to PC. Scale Supplier to supply.
4. Weighmaster Weigh Station software downloadable from www.weighmasters.net. TWM.exe. Version 1.6.3 or later. Official release date 1 September 2017.

Software Configuration

In the Weigh Station Software, under Setup->Scale Settings enter the Comm port where the scale is connected to and tick Scale Connected then click OK.

You should see the weight on the scale on the main page if all is working.

If something is not working please use programs like Hyperterm or putty do any fault finding. Note that only one program can have the serial port open at any given time.

Scale Configuration – Ask your scale supplier to help with this if you are not sure what this means

This is covered in the little manual that comes with the scale

P1=1, P2=1, P3=1, P4=2, P5=1, P6=1, P7=2, P8=2, P9=2

This is a stock standard model of the scale and no specials modifications have been made for our software to work. It comes in all stainless and stainless/mild steel combinations.

Notes on scale integration

1. Manually entering a weight is disabled if scale integration is active.
2. Make sure the weight is stable and that the scale and the screen have the same reading before hitting *Submit*.

Supplied by

These scales are supplied, supported and delivered countrywide by MAC WEIGHING SOLUTIONS. Please speak to Kobus Kok directly as he will make sure that the scale that you buy will be based on our specifications and integration.

The banner features the name 'Kobus Kok' and his title 'Industrial Service Engineer' on the left. In the center is the 'MAC WEIGHING SOLUTIONS' logo, which includes a red oval graphic. To the right of the logo is a white outline map of the African continent. Below the map is a list of countries: Cape Town, Johannesburg, Durban, Port Elizabeth, Angola, Ghana, Malawi, Mozambique, Nigeria, Uganda, and Zambia. At the bottom of the banner, contact information is provided: T: 086 127 2253 | C: 071 987 3232 | F: 086 645 3623 | E: Kobus@macscales.co.za

General note

Weighmasters.net do not supply, maintain or support any scales directly. Neither do we receive any kickbacks of any sorts from any scale supplier.
