- Provide data for Weigh Station Software to run competitions

www.weighmasters.net
 Is hosted in a secure data center in Johannesburg with full redundancy and database replication services

Weigh Station Software

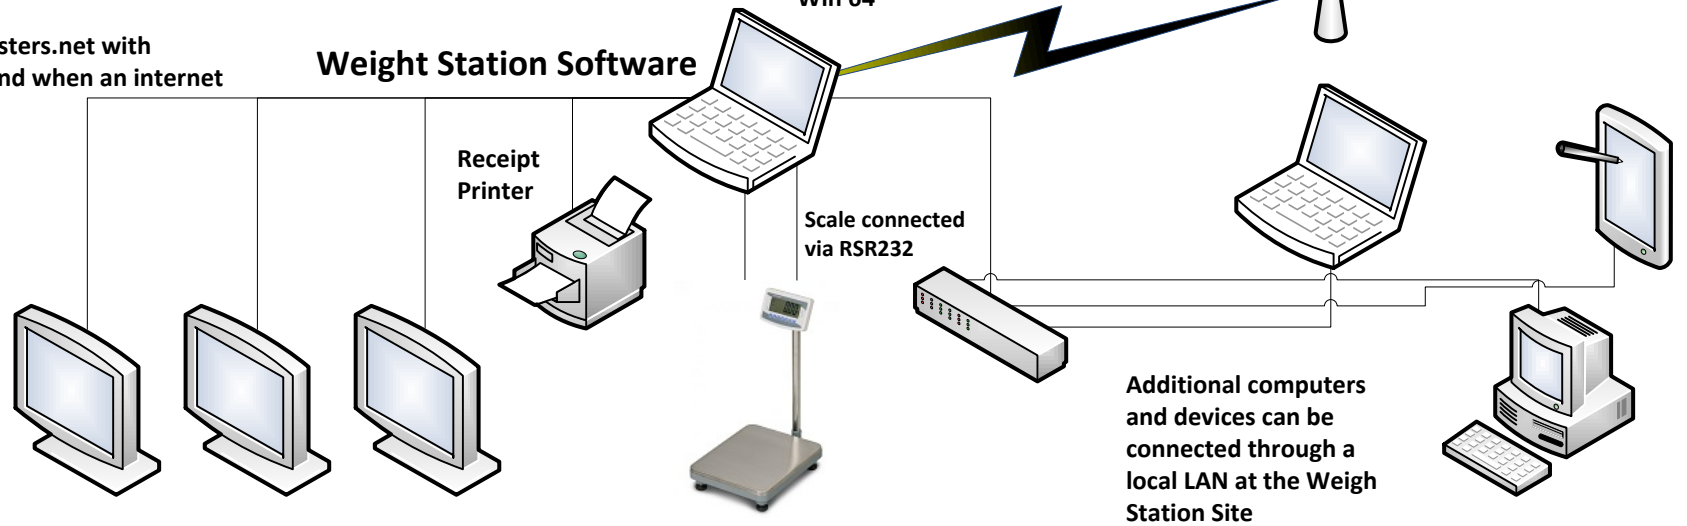

- Get data from www.weighmasters.net for competitions
- Manage weighing of fish
- Do calculations of points
- Show various local live scoreboards and dashboards
- Show local advertising.
- Update www.weighmasters.net with competition results if and when an internet connection is available.

A Mobile Data Link or internet connection is NOT REQUIRED to run a competition. It is only required if you want to get live updates to the internet
